

# MOTION ALERT SYSTEM

## KEY FEATURES:

- Alerts with light & sound when vehicles or pedestrians are approaching
- 1/2 mile range from sensor to base unit
- Easy operation
- Weatherproof outdoor sensor with adjustable sensitivity control
- Expandable up to 8 sensors

## PRODUCT SUMMARY

Our State-of-the-art Motion Alert System alerts you the moment someone enters your property. You will always have advance notice that you have visitors.

System features compact, discreet adjustable infrared motion sensor that installs on garage, mailbox, fence post...nearly anywhere!

When activated by the movement of people or vehicles, it transmits signals up to a half mile to the receiver, and detects motion up to 30 feet away! Perfect for private roads, long driveways or an extra sense of security around garages, decks, patios, businesses, storefronts, entryways and outbuildings.

This Wireless Motion Alert sensors monitor critical areas of your property. When a vehicle or person passes within 30 feet of the sensor, it will trigger an alert on the base monitor. This monitor can be located up to 1/2 mile away from the sensor, giving you an enormous range of coverage! The base unit is portable, so it can always be close at hand.

## TECHNICAL DETAILS:

Item Weight	1 pounds
Product Dimensions	8.2 x 5.5 x 3.5 inches
Batteries:	1 Nonstandard Battery batteries required.
Size	One Size
Color	Black
Power Source	battery-powered
Item Package Quantity	1
Batteries Included?	No
Batteries Required?	Yes
Battery Cell Type	Lithium Ion
Warranty Description	1-year warranty.

# MOTION ALERT SYSTEM

## FEATURES + BENEFITS

- Sensor/transmitter is rugged and weatherproof
- Meets or exceeds all federal regulations
- Adjustable sensitivity helps prevent false alarms
- Set includes one receiver and one transmitter, but can easily be expanded to work with up to 4 transmitters (sold separately), or run two or more complete systems, to monitor 8 or more areas at once
  
- Base unit uses either AA batteries or included AC adapter (recommended)
- Sensor AA batteries will last up to two years depending on use
- Base unit AA batteries will last up to one week depending on use
- Sensors are weatherproof
- 65 degree sensing range

**OPTIONAL ADD-ON SENSOR**
