

p25 Indoor Ceiling Camera

The p25 model is equipped with **6 Megapixel Moonlight Sensor Technology** providing the very best in low light performance to cope with every indoor situation.

- *Standalone: Full function @ zero bandwidth*
- *Video Sensor: Activity Sensor reducing false alarms*
- *Analytics heat map & people counting*
- *Alarm Notification: Email, FTP & VoIP (SIP)*
- *Two-way audio option*

c25 Indoor Camera For Suspended Ceilings

The c25 is our smallest **6 Megapixel Hemispheric** camera for rapid deployment in suspended ceilings like a halogen down lighting. Alternatively equipped with a telephoto lens and mounted above a cash register the c25 will provide a very detailed video of the content and allows even reading the serial numbers of a bank note.

- *Standalone: Full function @ zero bandwidth*
- *Video Sensor: Activity Sensor reducing false alarms*
- *Analytics heat map & people counting*
- *Alarm Notification: Email, FTP & VoIP (SIP)*
- *Two-way audio option*

i25 Indoors. Compact. Allround Secure.

The i25 is a hemispheric camera with **6 Megapixel Moonlight Technology** and will be wall mounted with a tilt angle of 15 degrees to achieve a perfect panoramic overview of a room. If mounted above a door, the i25 looks even partially underneath or into the door. A surface mount kit for concrete ceilings is also available.

- *Standalone: Full function @ zero bandwidth*
- *Video Sensor: Activity Sensor reducing false alarms*
- *Analytics heat map & people counting*
- *Alarm Notification: Email, FTP & VoIP (SIP)*
- *Two-way audio option*
