

**LIVE VIDEO
BROADCASTING**

Capturing Your Wedding Day LIVE

We offer you a unique and creative style for capturing your wedding day, by broadcasting it LIVE, using multiple video cameras, so that anyone with a computer can celebrate with you just as if they were actually there.

From start to finish, we take care of all your wedding videography needs. Our LIVE video streaming services also benefit guests who may not be able to travel by making it easy to attend virtually.

We Make Precious Moments Last

Your LIVE wedding video broadcast will be produced with an artistic flair by trained professionals. This special day will also be captured for you to enjoy now and forever. Listen to your vows, hear the emotion, and see the joy of your wedding day over and over again.

The Benefits of LIVE Video Broadcasting

Your LIVE wedding video broadcast can be watched by anyone you want. We also work with you closely to gather a list of email addresses, in advance of the broadcast, so that your virtual guests have an easy way to watch your wedding as it happens, even if they cannot attend!

We understand that your special day only happens once in a life-time, and we are confident that you will enjoy watching a copy of your wedding with family and friends over and over again.

NO LIMITS

From anywhere in the world with a high speed internet connection, your “virtual guests” will see a high-quality video broadcast of you walking down the aisle, exchanging vows, exchanging rings, and being pronounced husband and wife - while it happens!
