

WEB HOSTING SERVICES

ABS Technologies is committed to giving you that extra something you need for total online success. Whether you want to make your site as customer-friendly as possible, or optimize its search engine performance, ABS Technologies hosting is packed with value-added features and the flexibility needed to grow your business.

	WordPress Blog	WordPress is an easy-to-use weblog system, providing numerous features like categories, ratings, as well as plugins installation.	FREE
	Forum (Simple Machines)	Simple Machines Forum (SMF) is a professional grade software package that allows you to set up your own online community within minutes.	FREE
	Live Chat	You can add live chat support to your site with this tool. It will allow your visitors to interactively talk online to each other.	FREE
	Coppermine Photo Gallery	Coppermine is a multi-purpose fully-featured and integrated web picture gallery.	FREE
	Joomla	Joomla is one of the most powerful Open Source Content Management Systems on the planet.	FREE
	Business Locator	Provides your site with mapping functionality from Google Maps. With this tool, your customers can easily obtain detailed directions to your store location.	FREE
	RSS Feed Reader	The RSS Feed Reader provides a convenient way to syndicate information from a variety of sources, including world news stories, important blogs, or bulletins.	FREE
	Weather Toolbar	You can use this tool to integrate a Weather Report into your website. The report includes the current temperature, wind status, and humidity.	FREE
	Sitemap Builder	The Sitemap Builder tool helps you easily build and publish your own sitemap for better navigation.	FREE
	Image Gallery	Convenient and intuitive, the Image Gallery tool helps you add photos to your website. This tool includes a multi-page photo album with slide show and search features. It is practically effortless to manage and makes uploading photos as easy as 1-2-3!	FREE
	PDFtoWeb	This PDF-to-HTML Converter allows you to take your existing print collateral and turn it into vibrant web pages. The tool literally converts PDF documents into HTML code.	FREE
	Image Manipulation	The Image Manipulation tool helps you easily edit your images online. You can adjust, resize, crop, flip, change colors, and adjust brightness and saturation, and more - all without any special knowledge in design or software.	FREE

	Thumbnail Generator	The Thumbnail Generator helps you easily create thumbnails (reduced-size images of the original ones, used to view multiple images on a screen simultaneously) of your pictures and images.	FREE
	HTML Editor	The HTML Editor allows you to efficiently create and edit HTML documents.	FREE
	MLS Listing Display Tool	Continually updated properties on your website. Let customers browse the MLS listings for free and contact you when they find something that interests them. You can also require visitors to give their contact information before browsing the listings, thus acquiring free customer leads.	\$399 (Annual Fee)
	Banner Ad Rotation Tool	The Banner Rotation tool comes with everything you need to make money by selling ad space on your website. It includes a reporting mechanism that enables you to provide detailed reports and invoices to your customers.	\$599 (Set-up Fee)
	Guest Book	The Guest Book gives your users a place to post their opinions, recommendations, or complaints. It is useful feedback for your marketing efforts.	FREE
	Customer Survey	By adding a Customer Survey to your website, you can get the opinion of your visitors with a survey.	FREE
	Forum (phpBB)	The Forum (phpBB - php Bulletin Board) is a highly powered, fully scalable, and highly customizable open-source bulletin board package. phpBB has a user-friendly interface, simple and straightforward administration panel, and a helpful FAQ.	FREE
	Online forms	Online forms enable you to safely collect information from your site visitors.	FREE
	HTML Validation Tool	The HTML Validation Tool checks your HTML code for proper formatting. The results display your link status, report errors on your web page, and provide a clean version of your code.	FREE
	Website Search Engine	The Website Search Engine allows your site visitors to perform keyword searches in order to find information on your site. You can even exclude certain directories you do not want indexed.	FREE
	Personal Blog	The Personal Blog is a fast, easy-to-use, reliable blogging system.	FREE
	Advanced Blog	The Advanced Blog allows you to provide a robust blogging system for your visitors so they can share thoughts. Advanced features include multi-user access and multiple access levels.	FREE
