ARE YOU'RE IMAGES SAFE?

Depending on where you have stored your slides, negatives, and printed photos, they could be degrading quickly right now. Let ABS Technologies preserve them by transferring your media to Data DVD's. This gives you the ability to make prints, share them via email, and/or on Facebook. You can also order a DVD Slideshow and enjoy watching them on your PC or TV. When we scan your slides, negatives, and printed photos to DVD, we clean and enhance the quality of every slide. You can also protect your images by storing them on a data DVD or enjoy those precious memories on a custom DVD Slideshow with background music, and a number of menu options all on a single DVD.

HERE IS HOW TO GET STARTED:

1. Remove all slides from carousels, trays and binders.
2. If you have a preferred viewing sequence, label each slide in viewing order. If your media is not labeled, we will automatically scan them in random order.

3. Place the slides in the ABS Technologies supplied cardboard box provided. Label each box in viewing order. Gently mark an "X" on the side of the box to indicate direction of viewing order.
4. Secure the sealed slide box with tape for added security.

OTHER MEDIA SERVICES

Go beyond just archiving your family's history with the unique add-on services that ABS Technologies offers. Do you envision your own personal library of Digital images that are easy to reference for a specific photo when you need it? Are you mostly interested in watching them on your PC or TV? Would you like to create a photomontage with background music? All of these things are possible when you go Digital with ABS Technologies!
